

67179 – Lake Hill, Walshaw Road, Bury

CONTAMINATED LAND – CONDITION.

The site has been occupied by Lake Hill (large residential property with gardens, tennis courts and greenhouses) since prior to 1893. Previous land uses in the surrounding area have included Boholt Print Works and associated reservoirs and filter beds. The site is situated within 250 metres of Boholt Works, Walshaw Road Landfill. The site is situated adjacent or close to three reservoirs and the Walshaw Brook flows approximately 65 metres to the south. The site is underlain by glacial till and fluvioglacial sand and gravel deposits over the Lower Coal Measures Secondary A aquifer. A fault runs through the middle of the site from north west to south east.

In line with the National Planning Policy Framework, the site is proposed for a sensitive end use we recommend that the following contaminated land conditions are placed on any grant of permission:

CLA1 - Contaminated Land Preliminary Risk Assessment, Site Investigation, Detailed Risk Assessment and Remediation Strategy.

CLA2 - Contaminated Land implementation of Remediation Strategy and Site Verification Report.

Asbestos Condition - Prior to demolition of the structures on site an asbestos survey is to be carried out by an appropriately qualified contractor. Any asbestos identified shall be disposed of in an appropriate manner.

Reason: This is to secure the satisfactory development of the site in terms of human health, controlled waters and the wider environment and pursuant to the National Planning Policy Framework.

AIR QUALITY – CONDITION

Bury Council has been identified by DEFRA as an area requiring to significantly improve air quality. The required measures to do this are currently under discussion. Due to this requirement, this Section recommends the following condition to be placed on are placed on any grant of permission:

Air Quality Condition: Prior to occupation the applicant shall provide electric vehicle (EV) charging points for each residential unit. EV chargepoints shall be chosen for the Electric Vehicle Homecharge Scheme approved chargepoint model list.

Reason: In accordance with the NPPF, to encourage the uptake of ultra-low emission vehicles and ensure the development is sustainable. To safeguard residential amenity, public health and quality of life.

INFORMATIVE - The Control of Noise Regulations 1975, Section 60.
Control of Noise on Construction Sites

Works carried out in connection with the planning permission shall comply with the above regulations which require the following:

1. All works and ancillary operations which are audible at the boundary of the nearest house or noise receptor, or at such other place as may be agreed with the Council, shall be carried out only between the hours of 0800 and 1800 on Mondays to Fridays and between the hours of 0900 and 1400 on Saturdays and at no time on Sundays and Bank Holidays.
2. The best practicable means, as defined in section 72 of the Control of Pollution Act 1974, to reduce noise to a minimum shall be employed at all times.
3. All plant and machinery in use shall be properly silenced and maintained in accordance with the manufacturer's instructions.
4. Any emergency deviation from the above (1 – 3) shall be notified to Bury Council without delay.

Any contravention of these requirements will trigger the serving of a Notice under Section 60 of The Control of Noise Regulations 1975.

Operations – Environment Section.
