Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

☒ Yes

☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposal consists of the construction of a rear dormer loft extension to an existing mid-terrace dwelling.

Works include the extension of the existing roof to the rear to form a flat-roofed dormer, insertion of windows to the rear elevation, and associated internal alterations to create additional habitable accommodation within the loft space.

The development will provide one additional bedroom and an en-suite bathroom.

External materials will be selected to match or complement the existing dwelling where possible. No changes are proposed to the front elevation.

All works will be carried out within the curtilage of the property with no change to the building footprint at ground level.

Does the proposal consist of, or include, a change of use of the land or building(s)?

☐ Yes

☒ No

Has the proposal been started?

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The property is an existing single dwelling house and has been in continuous lawful residential use.

The proposal relates to alterations and extension of the existing dwelling and does not involve any change of use.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

No specific supporting documentation is considered necessary. The site is an established residential dwelling house

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- ☒ Permanent
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The proposed development constitutes permitted development under Schedule 2, Part 1, Class B of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

The proposal involves the formation of a rear dormer roof extension to an existing dwellinghouse and complies with the relevant limitations and conditions, including volume allowance, height, and location.

The property is not located within a designated area where such permitted development rights are restricted, and no previous development has removed these rights.

Therefore, the proposed works are lawful and do not require planning permission.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☒ Yes
☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
