Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. Description

Please describe details of the proposed development or works including any change of use

This is an application for planning permission to retain the Tack Room. This ex-shipping container was granted temporary planning permission on 11 November 2020 for 5 years subject to cladding in wood to be in keeping with the rest of the outbuildings (refer reference 65533).

The shipping container has remained in use as a vital, secure and weather proof facility to store all saddles, bridles, nummahs and other related tack for the present 12 horses and ponies. There are no other options to store these valuable items elsewhere on the site. The equine insurance providers requires secure storage of tack. Tack is valuable and very difficult to replace with every horse and pony being fitted for a saddle based on a Master Saddlers recommendations. The tack also includes donations from other local charities.

The shipping container is fully clad with wood and aesthetically appears the same as all the other outbuildings including stables. There has been no change to its location on site and no change in its dimensions.

The Riding Centre is owned and run by the Margaret Haes Riding Centre and is a Community Asset as match funding to purchase was received from the Government's Community Ownership fund and the site purchased in March 2023.

For clarity the other shipping container granted temporary permission at a similar time - welfare unit (ref 64955) - was removed from site when the charity purchased the Riding Centre in 2023.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The Tack Room floor area is 14.12 sq metres and has been existence in same location since 2020 as temporary planning was granted. Refer pervious planning ref 65533.

Note: Please read the help text for further information why developments may be exempt or not in scope.
