Building regulation drawings can be used for building estimates, however for an accurate quote builders must attend site as these drawings do not account for all aspects of the building works.

A line drawing of a house. The house has a chimney on the left side. The roof is gabled. There is a front door with a small porch. There are several windows, including a large one on the left and a smaller one on the right. The house is drawn with simple lines and no shading.

A minimalist line drawing of a house. The house features a gabled roof with a chimney on the left side. There are four windows: one small rectangular window in the upper gable, one medium rectangular window on the main wall, one small rectangular window near the ground level, and one rectangular door. The drawing is composed of simple black outlines on a white background.

A minimalist line drawing of a house. The house has a chimney on the left side. On the left wall, there is a small square window and a tall, narrow vertical window. The front of the house features a large window divided into four vertical panes. The roof is a simple horizontal line. The drawing is composed of clean, black outlines on a white background.
