

72938 – Pestwich Clough Farm, Clough Lane, Prestwich, Manchester, M25 3DJ

Parks and Countryside Response:

Hi Development Control

I have been to this site a few times as it was reported that the vegetation and tree have been cut down on the Council site next door and the temporary fence is not sufficient for the allotments.

I would say that this needs replanting and the fence needs to be made more permanent as no consultation has taken place to see the issues there, putting pressure on the Council from local residents and the allotment association

The trees have been cut further than their boundary so I reported this to Mark Kilby as it is in a conservation area and I think he reported it to enforcement for action, please see attached email, I had Whatsapped the photos as they were very big to send via email.

Kind Regards

Mike Bent
