4. Description of Proposed Works

Please describe the proposed works:

We wish to replace the existing double glazed window in the master bedroom with doors and add a balcony. The doors will be the same width as the existing window which is 170cm. We would like the balcony to be approximately the same width as the kitchen doors which are directly below the bedroom window to make the back of the house symmetrical and therefore aesthetically pleasing, the width of the balcony would therefore be 220cm. The depth of the balcony would need to be 150cm so we could place some patio furniture on there. We are looking for an all glass design for the balcony, we love the stone the house is built with and don't want to detract from the natural beauty of that. The main reason we would like to add the balcony is that there is a domestic garage belonging to our neighbours which takes the evening sun from our garden after approximately 1730, we want to be able to enjoy the sun for longer and so this would allow us to do that. We are also fortunate to have beautiful views over Holcombe Hill and Peel Tower which can be appreciated from the master bedroom, adding the balcony would allow us to extend our outside living space and improve our quality of life as we love the outdoors.

Has the work already been started without consent?

☐ Yes ☒ No
