Site meeting and general discussion about proposal

Date (must be pre-application submission)

Details of the pre-application advice received

During a walk around of the site and discussions in relation to the proposal it was suggested that there would be no objection in principle to siting of the units in the site users preferred location adjacent to houses on the East side of the playing fields and it was noted that there was a significant difference in levels between the proposed position of the units in relation to adjacent dwellings. It was noted that this area was not marked out with playing pitches and would therefore not affect current use of the fields. It was suggested that a similar recent application for Summerseat playing fields should be referred to for information on screening in order to soften visual impact.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
