If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposal involves the removal and rebuild of the existing single storey rear extension at 3 Arthur Street, Prestwich.

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The existing single storey rear extension was constructed in 2011 under Building Control application reference PAS1/11/01006, and has been in continuous lawful residential use as part of the dwelling since that time. The existing brick shed has also been in place for many years as an ancillary outbuilding. Both structures are lawful by virtue of having been built and used without enforcement action for over four years, thereby acquiring immunity from enforcement under Section 171B of the Town and Country Planning Act 1990.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Architectural drawings package (site location plan, block plan, floor plans, elevations, building regulations specifications), Building Control Regularisation Certificate (January 2024).

Select the use class that relates to the existing or last use.

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

This proposal qualifies for a Lawful Development Certificate as it falls within the permitted development rights for residential properties under Schedule 2, Part 1, Class A of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended). The proposed single storey rear extension will be rebuilt within the existing footprint of the extension constructed in 2011, with no increase in floor area. The eaves and ridge height will be lower than both the existing extension and the main dwelling. An existing brick outbuilding will also be replaced within its current footprint. The materials will match the existing property. As the works involve no enlargement of the existing extension and meet all relevant permitted development criteria, they do not require formal planning permission.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☐ Yes
☒ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.
