

THE LORD RAGLAN POLICY RESPONSE

Digital connectivity

In accordance with the Places for Everyone Policy JP-C2: 'Digital Connectivity' this new development will benefit from full fibre connectivity, subject to achieving this in a manner compatible with protecting, enhancing and conserving this heritage asset. The policy accepts that total compliance might not be achieved if it is technically infeasible and / or unviable but every attempt will be made to incorporate full fibre and the Applicant is content to accept a condition to that effect.

The policy supports the provision of free, secure, high-speed public wi-fi connections, particularly in the most frequented areas. This proposed development would support high-quality digital infrastructure through the following measures:

- Full Fibre Superfast Internet will be installed to the development, when and if it is available in Nangreaves.
- Mesh network throughout the property, ensuring seamless fast wireless internet to all rooms, which will ensure a strong and reliable connection everywhere.
