Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

☒ Yes

☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Yes, the proposal includes the carrying out of building or other operations. Specifically, it involves converting the loft into a dormer loft conversion and extending the hip wall to provide additional room for my children who need more space. These activities will include constructing the dormer structure, modifying the existing roof, and extending the hip wall, all of which constitute significant structural changes to the property.

Does the proposal consist of, or include, a change of use of the land or building(s)?

☐ Yes

☒ No

Has the proposal been started?

☐ Yes

☒ No

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

I consider the existing or last use of the land to be lawful because it has been continuously used as a residential property, with all previous construction and modifications carried out in compliance with relevant planning permissions and building regulations. The existing building, which is proposed to be altered or extended, is lawful as it was constructed and has been maintained in accordance with local planning policies and building codes. There have been no enforcement actions or notices indicating any illegal use or construction on the property, further supporting its lawful status.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Please refer to architectural drawings submitted with this application.

Select the use class that relates to the existing or last use.

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

I consider that a Lawful Development Certificate should be granted for this proposal because the planned alterations and extensions comply with all relevant planning regulations and building codes. The proposed dormer loft conversion and hip wall extension fall within the permitted development rights for residential properties, as outlined in national and local planning guidelines.

Furthermore, the existing building is lawful, having been constructed and maintained in accordance with the appropriate planning permissions and building regulations. There have been no breaches or enforcement actions against the property, demonstrating its compliance with legal standards.

The proposed works will be conducted in a manner that ensures structural integrity, safety, and minimal impact on the surrounding environment and neighborhood. Professional architectural and engineering assessments have been or will be conducted to ensure adherence to all required standards.

Given these factors, granting a Lawful Development Certificate for this proposal is justified, ensuring that the planned development is recognized as lawful and can proceed without further legal obstacles.
