

Env Health – Pollution Control

The noise report concluded that currently the site is not acceptable for this development. Mitigation would be required by a specified specialist to achieve the internal criteria noise levels. Prior to approving this development, the mitigation methodology needs submitted to the local authority for approval. Vibration from the music should also be investigated and mitigation methodology submitted to the local authority prior approval

thanks

A handwritten signature in black ink, appearing to read 'Rob Hall', with a stylized, cursive script.
