Proposed Demolition Works

Please describe the building(s) to be demolished

Victorian building.

Formally a manor house (around 120 years old) it is assumed that the local authority became the new owners around fifty years ago. It was split into five separate, one bedroom properties with small extensions added to the rear.

Please state the reasons why demolition needs to take place

Building is in bad state of disrepair with a significant outbreak of dry rot.

Options appraisals have been undertaken for the future of the building, regrettably refurbishing it to modern standards are cost prohibitive mainly due to the dry rot and the works required to bring it to a standard with all current building regulations.

Please describe the proposed method of demolition

A structural survey has been undertaken and within it (section 5) describes the methodology to be used and all the control systems to be put in place

How and where would spoil/rubble be disposed of?

Rubble to be disposed of in line with the contract, disposed and recycled as necessary.
Taken away by road and disposed recycled in line with current regulations and licence obligations.

Please provide details of the proposed restoration of the site

Flattened and levelled in line with Scope of works (attached)
