

Places for Everyone Policies

JP-S2 Carbon and Energy

The application seeks retrospective planning permission for an existing open sided barn and ornamental pond that was constructed in 2020. It is used for storage of garden furniture, garden maintenance equipment and cars. Therefore Policy JP-S3 is not relevant to the proposal.

JP-C2 – Digital Connectivity

The application seeks retrospective planning permission for an existing open sided barn and ornamental pond. It is incidental to the existing residential property. There is no scope to provide affordable, high quality, digital infrastructure as part of this application and is therefore not relevant.
