

72655 – Gable of 2 Rochdale Road

TfGM Comments

Good Morning,

Thank you for consulting TfGM in respect of the above application, which seeks approval for the conversion of a poster to a Digital poster.

TfGM UTC have safety concerns over the location of the proposed digital display, as the display will be sitting right in front of the traffic signal head for the nearby pedestrian crossing. The lit sign could affect the visibility of the signal for drivers or cause drivers to be distracted.

Kind regards

Landuse Team
