

72993 – ProW response

No issues with the bollards in the bridleway if it restricts parking. However, those bollards would not become maintainable at public expense. No issues with the other items.

The following response would be relevant in this case –

The applicant must be made aware of the need to safeguard people using public rights of way and that no public rights of way are damaged, widths altered, gates erected across their width (unless authorised by Bury Council as Highway Authority) or obstructed by any other means either during or as a result of development. The applicant must ensure that no changes to land levels/surface water runoff affects a public right of way. If a temporary obstruction of public rights of way is unavoidable, no development must take place until a temporary closure order has been made by Bury Council and a suitable temporary alternative route(s) made available.
