Description

Please describe details of the proposed development or works including any change of use

Replacement of an existing timber framed agricultural barn, used to store hay and to house livestock, with a new timber framed agricultural barn, to be used for the same purposes. No change of use, and the appearance will be improved because the existing barn is old and in a state of disrepair.

Replacement of an existing breezeblock and steel framed garage with a timber framed building of the same type as the barn. Currently used as a garage and store. No change of use. Here again the existing building is old (built in the early 1970s) and in a poor state of repair, so the new building will improve the overall appearance of the farm.

The work has not started, but part of the existing barn has started to fall down, so the roof has been removed for safety. The work must be completed by the autumn of this year, as the building is needed. This is a working farm with livestock that has to be housed over the winter months.

Details of the pre-application advice received

I initially applied for Permitted development, as it was my understanding this would be sufficient. I was told that full planning would be required. I applied for that, but received an e-mail from Michelle Ashton dated 23 May saying that I could not apply as a householder for an agricultural building (not sure why, I own the farm).

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
