Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Full planning permission is being sought for the change of use of the property at 427 Bury New Road. The property is currently vacant and was previously used as a shop (Use Class E(a)). This proposal looks to facilitate a change of use to a wine shop and wine bar (Sui Generis). This will be located on the ground and first floors and comprises the entirety of the building.

The property sits between a licensed restaurant and a licensed bar with no adjacent residential properties.

There are no major alterations to the structure of the building. We propose to move the front door adjacent to it's current position to allow for more seating near the window area (please see attached proposed layout). The door is currently set back from view from the main road and the proposed alteration will also be set back from the main road. The window on the first floor will also be replaced with a patio door to allow access to the balcony at the front of the building. Only cold bar snacks will be served therefore extract ducts and flues will not be required. Internal works include addition of walls on the ground floor to create a preparation area and a downstairs WC and non-supporting walls will be removed on the first floor to facilitate an open plan seating area.

The proposed bar will have seating for a maximum of 44 customers and will employ the equivalent of 3 full time members of staff.

The proposed opening hours are 17:00 to 23:00 Wednesday, 15:00 to 23:00 Thursday and Friday, 12:00 to 23:00 Saturday, and 12:00 to 20:00 Sunday. A premises license application has been submitted for the licensable activities.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold) What best describes the size of your site?: Over 25 square metres Please justify the reason why biodiversity net gain does not apply: No habitats will be affected by the proposed internal works.

Note: Please read the help text for further information why developments may be exempt or not in scope.
