

WINDOW DIGITAL SCREEN

Window Digital Screen

The digital screen is available in two standard sizes: 65 and 75 inch.

Depending on the window situation there are different leg heights available.

Leg height variations per screen:

- **Window Digital Screen 65":**
756/600/400/200mm
- **Window Digital Screen 75":**
646/500/300mm

The screen is free standing and facing the window, on the back of the screen's stand is a smart frame visual.

Supplier: First Impression

Material frame: steel powder coated black RAL 9005 glossy

GC to bolt base plate of frame to the floor. Discuss position of power and data socket (floor/wall/ceiling) with Rituals CM.

GC to check Final Design. If modifications are necessary (eg. due to local regulations/design guidelines) please discuss with Rituals Construction Manager in alignment with Store Design.

More details available in ['Annex 1: Standard Details'](#).

Please refer for all the technical details and installation to ['ICT manual'](#).
