

Places For Everyone Plan

Policy JP-S2 - Carbon and Energy.

In compliance with Policy JP-S2 of the Places for Everyone (PfE) plan, our development prioritises the minimisation of energy demand and maximisation of energy efficiency through the following measures:

- Energy Performance Certificate (EPC) Rating: The property achieves a high EPC rating of C, demonstrating energy efficiency and environmental sustainability.
- Smart Thermostats: Smart thermostats will be installed throughout the property to enable precise control over heating and cooling, enhancing energy efficiency and user comfort.
- The property will undergo regular maintenance, with annual reviews to ensure all energy-saving measures are functioning optimally and to identify opportunities for further improvements.

These measures align with the 2022 Part L Building Regulations and underscore our dedication to creating a sustainable and energy-efficient development.

Policy JP-C2: Digital Connectivity

In compliance with Policy JP-C2 of the PfE plan, our development will support high quality digital infrastructure:

- The property is served by full fibre broadband
- A search on Money Supermarket produces two suppliers who can provide 1GB or more of internet speed to the property.
- As this property is located on a prominent main road, it is anticipated or expected that there should be no issues with mobile connectivity.
