Altrincham,
Cheshire WA14 2SR**

Job No: 4321

**Unit D3,
Chamberhall Business Park
Bury**

This Design Access Statement (DAS) has been prepared by Stephen D Buxton & Associates in support of: A full planning application by the applicant Premier Textiles Limited for development which includes forming four new openings for the installation of windows to unit D3 which Premier textiles have recently purchased.

This Planning Application is for the installation four windows to the front elevation of Unit D3. One at low level and three at high level as indicated on Nexus Workspace Drawing 12866-010-02

The windows will be opened outwards hinged from the top edge.

The aluminium window frames and flashings will be Anthracite grey RAL 7016 in line with the business parks existing colour scheme.

Premier textiles have recently added some extra upper floor office space to the unit. As a consequence of this the windows will provide much needed natural daylight to the staff along with a source of natural ventilation and cooling.
