

The owners of Brook Bottom have undertaken substantial planting and landscaping on the property from September 2019 to July 2023.

Detailed below is a summary of the landscaping scheme around the property with a specific focus on the border planting.

A Topographical Survey accompanies this summary.

North Bank adjoining Bury Old Road

Planted in this small banking area are a cluster of Copper Beach Hedging plants to the rear and roadside there is a small wildflower bank.

North East Entrance Planters (1) and (2)

In the two entrance planters are a combination of Oleaster Gilt and Grasses and various other evergreen smaller plants

North West Border

Planted along the entire border here is Viburnum Tinus Hedging along with a single large laurel tree

North West (Main planter adjacent to Treatment Rooms Car Park)

Planted here are numerous Silver Birch trees, Cheals Weeping trees and low level Juniperus Pfitzeriana covers the entire bank

West Bank

Planted in this area is a conifer bank and numerous Hazel Trees to the far west bank corner. This area also features a lawn to the interior of the west bank (1)

South West Bank

Planted across this entire bank is a wildflower meadow. This area also features a lawn to the interior of the south west bank (2)

Entire South Bank

There is substantial planting across the entire south boundary of the property. This bank is made up of a vast array of Laurels, Conifers, Eucalyptus, Hazel, Acers, Bamboo, Holly, Yew Hedges, Spruce, Mahonia Hedge, Portuguese Laurel and Rhododendron

East bank adjoining Bury Old Road

A combination of laurels, conifers and holly trees are planted on this border adjoining Bury Old Road

The gardens are continually cared for throughout the Spring and Summer months using a combination of gardeners and landscapers to tend to the plants.

In preparation for winter, the gardens and planting are cut back ready for the following Spring.
