- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

The intention is to put cameras on top of the flag pole right at the top of Peel Tower. This is in response to seeing sharp increase in interest of our surrounding countryside and particularly Peel Tower over the last few years. There has also been an increase events and activities on Peel Tower as it is such a famous and iconic landmark.

A live feed on the tower makes the view accessible to all especially those unable to climb the hill and then the steps to the top. We have already had a few visitors into the centre yesterday and this morning to view the scene and have had to disappoint them. We have looked at other areas who have webcams on historical sites such as St Ives and the Minack Theatre in Cornwall to name a few.

The flag pole has been an integral part of the Tower for some time and has just been repaired so that people who see the flag flying know that the tower is open, so installing cameras on the top seems like an obvious improvement to create access for all.
