Proposal: Garage conversion; First floor side extension; Single Storey front infill; Render to all elevations, cladding to front elevation

Location: 12 Springside View, Bury, BL8 4LU

Description

The property is a two storey detached house. The premises has a drive to the front/side that leads to an integral garage along with gardens to the front and rear of the dwelling. Houses to the front of site are over 20m from the existing dwelling, and the adjacent properties on either side are No.10 and No.14 Springside View.

Planning permission is sought for a garage conversion; first floor side extension and a single storey front infill along with render to all elevations and cladding to the front elevation.

The existing garage would be converted to habitable and the proposed single storey extension would infill the existing enclave to the front/side. The first floor extension would be constructed above the garage and would align with the existing two storey element. This extension would not extend beyond the foot-print of the existing garage. The development would have pitched roofs above all extensions and render would be applied to all elevations, while cladding would be used on only part of the front elevation.

The proposal would facilitate a new bedroom via the garage conversion and snug/lounge extension via the single storey infill extension. The first floor extension would provide bedroom extensions on the first floor.

Relevant Planning History

None.

Publicity

Neighbour letters sent on 08/06/2025. No objections received, one comment of support received.

Comment

There are no concerns, instead the party supports the development and they believe that the development would improve living standard and provide a positive impact to all homes on the street.

H2/3 Extensions and Alterations

SPD6 Supplementary Planning Document 6: Alterations & Extensions

Issues and Analysis

The following report includes analysis of the merits of the application against the relevant policies of both the National Planning Policy Framework (NPPF), the adopted Places for Everyone Joint Development Plan Document (PfE) and the saved policies within the adopted Bury Unitary Development Plan (UDP), together with other relevant material planning considerations.

The policies of the UDP that have been used to assess this application are considered to be in accordance with the NPPF and as such are material planning considerations. For simplicity, just the UDP and PfE Policies will be referred to in the report, unless there is a particular matter to highlight arising from the NPPF where it would otherwise be specifically mentioned.

Equality Act 2010: All planning applications are considered in light of the Equality Act 2010 and associated Public Sector Equality Duty, where the Council is required to have due regard for:

The elimination of discrimination, harassment and victimisation;

The advancement of equality of opportunity between persons who share a relevant protected characteristic and person who do not share it;

The fostering of good relations between persons who share a relevant protected characteristic and person who do not share it; which applies to people from the protected equality groups.

Human Rights: All planning applications are considered against the provisions of the Human Rights Act 1998.

Under Article 6 the applicants (and those third parties who have made representations) have the right to a fair hearing and to this end full consideration will be given to their comments.

Article 8 and Protocol 1 of the First Article confer a right to respect private and family life and a right to the protection of property, ie peaceful enjoyment of one's possessions which could include a person's home, and other land and business assets.

In taking account of the Council policy as set out in the Bury Unitary Development Plan 1997 and all material planning considerations, it is concluded on balance that the rights conferred upon the applicant/ objectors/ residents/ other interested party by Article 8 and Article 1 of the First Protocol may be interfered with, since such interference is in accordance with the law and is justified in the public interest. Any restriction of these rights posed by refusal/ approval of the application is legitimate since it is proportionate to the wider benefits of such a decision, is based upon the merits of the proposal, and falls within the margin of discretion afforded to the Council under the Town & Country Planning Acts.

The Crime and Disorder Act 1998 imposes (without prejudice to any other obligation imposed on it) a duty upon the Council to exercise its functions and have due regard to the likely effect of the exercise of its functions on, and the need to do all that it reasonably can to prevent crime and disorder in its area. In so doing and on making planning decisions under the Town and Country Planning Acts, the material Planning considerations shall have due regard to the provisions of the Crime and Disorder Act 1998 and its implications in the exercise of its functions.

Visual Amenity

UDP Policy H2/3 and SPD6 seeks to achieve a high standard of design that compliments the original building, does not have a detrimental impact on the character or appearance of neighbouring properties, and protects the general street scene.

Situated to the side and front, the single storey infill and the first-floor extensions would be visible from the street scene. However, these elements would have a simple and unobtrusive design, which would not detract from the character of the dwelling. Additionally, this street has properties with different types of finishing materials such as rendering and cladding. Therefore, the proposed render finish to all elevations and cladding to the front would be acceptable.

Overall, the proposed development would be constructed with materials that would be in keeping with the existing and the proposed windows would appropriately align with the existing. As such, the proposed development would not be a prominent feature in the street scene and would comply with Policies H2/3 of the Bury Unitary Development Plan and SPD6.

Residential Amenity

SPD 6 and H2/3 seek to reduce the impact of proposals on the residential amenity of neighbouring properties.

- There would be no proposed side windows facing the adjacent neighbouring properties. Furthermore, there would be sufficient distance to the shared rear boundary and existing shrubs would screen the proposed windows on the rear elevation.
- Given that the proposed first floor side extension would not project beyond the rear elevation of the adjacent property, the development would not encroach the 45° and therefore, the development would be acceptable.
- The proposed infill front extension would be a modest structure that would not interfere with the parking arrangement or drive. The extension would not project beyond the principal front or side elevations.

Overall, there would be no serious impact on the amenity of any adjacent neighbouring properties. The proposal therefore conforms to UDP Policy H2/3 - Extensions and Alterations and the requirements of Supplementary Planning Document 6 - Alterations and Extensions to Residential Properties.

Highways

The proposal will result in one additional bedroom on the ground floor but there will be no changes to the parking layout. Therefore, the driveway at its current condition would meet the maximum parking requirements.

Statement in accordance with Article 35(2) Town and Country Planning (Development Management Procedure) (England) (Amendment) Order 2015

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively and positively to issue the decision without delay. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

Recommendation: Approve with Conditions

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason. Required to be imposed by Section 91 Town & Country Planning Act 1990.

- 2 This decision relates to drawings numbered 2519-GTA-Z0-00-DR-A-1010, 2519-GTA-XX-XX-DR-A-1011, 2519-GTA-XX-XX-DR-A-1012 and the development shall not be carried out except in accordance with the drawings hereby approved.
Reason. For the avoidance of doubt and to ensure a satisfactory standard of design pursuant to the policies of the Bury Unitary Development Plan and Places for Everyone Joint Development Plan listed.
