A 2D architectural line drawing of a two-story house, oriented horizontally. The house features a gabled roof with a smaller dormer on the left side. The main body of the house has two windows on the upper floor and a single door on the ground floor. The dormer has a single window. The drawing uses simple black outlines and includes some color coding: yellow for the upper panes of the windows and blue for the lower panes. The roof is filled with a light gray pattern. The drawing is positioned on the right side of the page, with a vertical line to its right and a horizontal line below it.
