

BURY COUNCIL
DEPARTMENT FOR PLACE

REF NO: 26/206

FROM: Head of Engineering & Streetscene TO: Head of Development Management

Planning Application No: 73369
Location: 12 Bolton Street, Bury, BL9 0LQ
Development: Installation of an ATM

RECOMMENDATION

I recommend that this planning application be refused

Reasons

1. Due to the established need to avoid an unnecessarily long distance to walk between the vehicle and the ATM, in addition to allowing constant line of sight between the replenisher's vehicle and the machine, the proposed installation is highly likely to lead to cash in transit vehicles parking in the immediate vicinity of the property on the existing double yellow lines, which would cause a bottleneck for two-way traffic on Bolton Street, one of the primary accesses into Bury town centre for several bus routes, to the detriment of highway safety.
2. The installation of the proposed ATM and resultant use of the machine and queuing by pedestrians on the existing narrow footway could lead to obstruction of the footway for all users in addition to pedestrians having to step into carriageway, to the detriment of pedestrian safety.
