

Supporting Letter for change of use

Dear Sir/Maddam

I am writing this letter to support my application for a change of use at 2A/2B wash lane BL96AS from retail to a public house .

We are not going to be doing any permanant fixed building work to the premises, all work is going to be wood and plasterboarding .

We are not going to be changing the exterior of the building apart from a sign above the front door but again no permanent fixed building work and all changes will be removable inside and out.

The plan for the bar has been a very long process and not something ive just decided i want to do over night. myself and my wife own a beauty salon on bell lane and we have told people about the bar and there is a real welcoming for somthing more personal and homely than a standard pub in the local area . The size of our bar will accomadate 35/45 people maximum and its more of an upmarket wine/cocktail bar.

Thanks Paul Clark
